**Homework:** Reading and written assignment. Assignment due on February 14th at the beginning of class.

Read chapter 3 on Lisp.

History; motivation for development; program evaluation model (abstract list machine); theoretical foundations.
Language overview.
Innovations in the design of Lisp. (What made it different from other existing languages when it was created and still makes it different to current languages in some of its defining aspects.)
Submit exercises: 3.1 and 3.2
